**MIT
QUALITY**

Taiwanese engineering excellence—precision, reliability, and innovation at its core.

**CREATIVE
INNOVATION**

Pioneering next-gen networking through visionary R&D and user-centric design.

**SOLUTION
ORIENTED**

Intelligent, adaptable solutions empowering homes, businesses, and industries.

**ONE-STOP
SERVICE**

Comprehensive solutions with seamless support for an effortless experience.

**SUSTAINABLE
DESIGN**

Eco-conscious innovation with energy-efficient tech and green packaging for a sustainable future.

35+ Years of networking experience

90 Sales offices in 43 countries

30 RMA centers

1590+ Employees globally

Fixed Wireless Access Series

- **ODU/IDU Series**

Convert 5G to high-speed Wi-Fi/Ethernet, ideal for outdoor, buildings, and rural areas, ensuring robust connectivity.

- High Speed Internet Access
- Plug & Play
- PoE LAN
- IP67 Outdoor Protection
- External Antenna Support

- **Indoor CPE Series**

Offer high-speed Internet access with advanced features, perfect for homes, small offices, and gaming enthusiasts.

- High Speed Internet Access
- Wi-Fi 7/Wi-Fi 6 Connectivity
- Mesh Network
- WAN Failover
- Hassle-Free Network Setup

Mobile Access Series

- **USB Adapter Series**

For individual mobile users to connect everywhere, USB Adapter Series can be used for embedded system as a backup connection.

- 5G NR/4G LTE Dual Mode
- Plug & Play
- Compact & Lightweight Design
- Personal Secure Network

- **Wi-Fi Mobile Hotspot Series**

Ideal for mobile user groups, enabling high-speed broadband connectivity everywhere and ensuring reliable Internet on the go.

- High-Speed Connectivity
- Portability and Convenience
- User-Friendly Management
- eSIM Support

4G/5G Product Portfolio

As we innovate in the 5G and Wi-Fi 6 & 7 era, our 4G/5G product portfolio highlights our commitment to delivering cutting-edge technology, exceptional performance, and unparalleled reliability across diverse sectors.

Higher Speed

Enjoy faster data speeds for superior performance.

Ubiquitous Access

Connect in diverse locations without extensive wiring.

Low Latency

5G technology ensures real-time responsiveness.

No Fixed-Line Needed

Simplified installation with no need for traditional infrastructure.

Quick Installation

No cable laying required, enabling immediate high-speed Internet access.

Security & Privacy

Keep your network secure with the latest Wi-Fi security protocols and cybersecurity certification.

App Control

App and cloud service allow to access the device anywhere, anytime.

Wi-Fi Mesh

Wi-Fi Mesh intelligently finds best path, providing better wireless coverage.

ODU/IDU Series

The D-Link ODU/IDU (Outdoor Unit/Indoor Unit) series, part of the Fixed Wireless Access lineup, features two powerful devices for superior connectivity. Utilizing cutting-edge 5G technology, this setup surpasses traditional DSL broadband, offering ultra-fast, low-latency Internet. It ensures consistent, reliable, high-speed access for streaming, gaming, remote work, and smart home and office integrations. Also fast, flexible deployment saves time and cost, while easy setup and management make it ideal for areas far from the cellular base station.

Ultra-Fast 5G Speed

5G NR and Wi-Fi 6 technology to deliver faster speeds.

Plug & Play

A built-in SIM slot enables you to access high-speed 5G and Wi-Fi networks anywhere.

Easy Setup & Management

PoE-supported enables cost-effective Ethernet connection to the ODU.

Security & Privacy

Keep your network secure with the latest Wi-Fi security protocols and cybersecurity certification.

External Antenna Extension

Flexible installation to enhance signal strength and expand the coverage area.

IP67 Weatherproof

The IP67-rated ensures reliable connectivity and extended product life in outdoor environments.

- Ultra-fast Wi-Fi 6
- Dual GE LAN ports
- Expanded coverage
- PoE power supply

Indoor CPE Series

Utilizing ultra-fast 5G speeds and the latest Wi-Fi 7 connectivity, the D-Link Indoor CPE series provides exceptional Internet performance. The built-in 5G/LTE antenna and SIM slot ensure seamless connectivity and wide coverage. You can stream 4K and 8K content effortlessly, download large files rapidly, and support multiple devices without compromising speed. Enjoy lag-free online gaming, smooth video conferencing, and flawless smart home device integration. Easy installation, enhanced security features, and broad device compatibility make it perfect for modern digital needs in homes and offices.

Ultra-Fast Speed

Lightning-fast Internet with integrated 5G NR and Wi-Fi.

Plug & Play

Simply insert a SIM card to access high-speed 5G and Wi-Fi networks anywhere.

Automatic Failover

Allow to switch to a backup Internet connection if the primary connection is lost.

Wi-Fi Mesh

Wi-Fi mesh intelligently finds best path, providing better wireless coverage.

Security & Privacy

Keep your network secure with the latest Wi-Fi security protocols and cybersecurity certification.

Access Anywhere

App and cloud service allow to access the device anywhere, anytime.

Mobile Access Series

Stay connected wherever you are with D-Link's Mobile Access series, featuring the USB Adapter and Wi-Fi Mobile Hotspot. These devices offer superfast and reliable Internet access using advanced 4G/5G technology, ideal for mobile professionals and frequent travelers. They eliminate the need for fixed-line infrastructure, providing high-speed broadband on the move. Perfect for online gaming, video conferencing, and seamless Internet browsing, these products ensure you stay connected in any location.

High-Speed Connectivity

Achieve fast mobile broadband with 5G and 4G LTE technology for reliable, low-latency Internet access.

eSIM Support

Enable digital activation and easy switching between multiple eSIM profiles.

Travel-Friendly Design

Pocket-sized with a built-in battery, making it easy to carry and perfect for on-the-go use.

Easy Setup

Easy to set up with built-in software, no complicated installation required.

Enhanced Security

Built-in firewall and the latest Wi-Fi security protocols protect your data from unauthorized access.

Flexible Usage

Connect multiple Wi-Fi devices and enjoy seamless Internet access for business trips, travel, and remote work.

¹Maximum wireless signal rate derived from IEEE Standard 802.11 specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, may lower actual data throughput rate. Environmental factors will adversely affect wireless signal range.

²The actual battery life may vary depending on several factors such as network conditions, connected devices, streaming content, device settings, and battery aging.
