E-mail

Recipient E-mail Address	<input type="text" value="max.mustermann@freenet.de"/>
SMTP Mail Server	<input type="text" value="mx.freenet.de"/>
Port	<input type="text" value="465"/> (Range : 1 to 65535)
User Name	<input type="text" value="max.mustermann@freenet.de"/>
Password	<input type="password" value="....."/>
Sender E-mail Address	<input type="text" value="max.mustermann@freenet.de"/>
Send next E-mail after	<input type="text" value="30"/> Seconds (Range : 30 to 86400 seconds)
Use SSL-TLS	<input type="text" value="SSL-TLS"/>

E-mail

Recipient E-mail Address	<input type="text" value="max.mustermann@freenet.de"/>
SMTP Mail Server	<input type="text" value="mx.freenet.de"/>
Port	<input type="text" value="587"/> (Range : 1 to 65535)
User Name	<input type="text" value="max.mustermann@freenet.de"/>
Password	<input type="password" value="....."/>
Sender E-mail Address	<input type="text" value="max.mustermann@freenet.de"/>
Send next E-mail after	<input type="text" value="30"/> Seconds (Range : 30 to 86400 seconds)
Use SSL-TLS	<input type="text" value="STARTTLS"/>

## Gmx:

E-mail

Recipient E-mail Address

SMTP Mail Server

Port  (Range : 1 to 65535)

User Name

Password

Sender E-mail Address

Send next E-mail after  Seconds (Range : 30 to 86400 seconds)

Use SSL-TLS

E-mail

Recipient E-mail Address

SMTP Mail Server

Port  (Range : 1 to 65535)

User Name

Password

Sender E-mail Address

Send next E-mail after  Seconds (Range : 30 to 86400 seconds)

Use SSL-TLS

## Googlemail:

E-mail

Recipient E-mail Address

SMTP Mail Server

Port  (Range : 1 to 65535)

User Name

Password

Sender E-mail Address

Send next E-mail after  Seconds (Range : 30 to 86400 seconds)

Use SSL-TLS

E-mail

Recipient E-mail Address

SMTP Mail Server

Port  (Range : 1 to 65535)

User Name

Password

Sender E-mail Address

Send next E-mail after  Seconds (Range : 30 to 86400 seconds)

Use SSL-TLS

## Outlook

E-mail

Recipient E-mail Address	<input type="text" value="max.mustermann@outlook.de"/>
SMTP Mail Server	<input type="text" value="smtp-mail.outlook.com"/>
Port	<input type="text" value="587"/> (Range : 1 to 65535)
User Name	<input type="text" value="max.mustermann@outlook.de"/>
Password	<input type="password" value="••••••••"/>
Sender E-mail Address	<input type="text" value="max.mustermann@outlook.de"/>
Send next E-mail after	<input type="text" value="30"/> Seconds (Range : 30 to 86400 seconds)
Use SSL-TLS	<input type="button" value="STARTTLS"/> ▾
	<input type="button" value="Test"/>

## T-Online

E-mail

Recipient E-mail Address	<input type="text" value="max.mustermann@t-online.de"/>
SMTP Mail Server	<input type="text" value="securesmtp.t-online.de"/>
Port	<input type="text" value="465"/> (Range : 1 to 65535)
User Name	<input type="text" value="max.mustermann@t-online.de"/>
Password	<input type="password" value="••••••••"/>
Sender E-mail Address	<input type="text" value="max.mustermann@t-online.de"/> ×
Send next E-mail after	<input type="text" value="30"/> Seconds (Range : 30 to 86400 seconds)
Use SSL-TLS	<input type="button" value="SSL-TLS"/> ▾
	<input type="button" value="Test"/>

E-mail

Recipient E-mail Address	<input type="text" value="max.mustermann@t-online.de"/>
SMTP Mail Server	<input type="text" value="securesmtp.t-online.de"/>
Port	<input type="text" value="587"/> (Range : 1 to 65535)
User Name	<input type="text" value="max.mustermann@t-online.de"/>
Password	<input type="password" value="••••~•••"/>
Sender E-mail Address	<input type="text" value="max.mustermann@t-online.de"/>
Send next E-mail after	<input type="text" value="30"/> Seconds (Range : 30 to 86400 seconds)
Use SSL-TLS	<input type="button" value="STARTTLS"/> ▾
	<input type="button" value="Test"/>

## Web

E-mail

Recipient E-mail Address	<input type="text" value="max.mustermann@web.de"/>
SMTP Mail Server	<input type="text" value="smtp.web.de"/>
Port	<input type="text" value="587"/> (Range : 1 to 65535)
User Name	<input type="text" value="max.mustermann@web.de"/>
Password	<input type="password" value="••••~•••"/>
Sender E-mail Address	<input type="text" value="max.mustermann@web.de"/> ×
Send next E-mail after	<input type="text" value="30"/> Seconds (Range : 30 to 86400 seconds)
Use SSL-TLS	<input type="button" value="STARTTLS"/> ▾
	<input type="button" value="Test"/>

## Yahoo

E-mail

Recipient E-mail Address	<input type="text" value="max.mustermann@yahoo.de"/>
SMTP Mail Server	<input type="text" value="smtp.mail.yahoo.com"/>
Port	<input type="text" value="465"/> (Range : 1 to 65535)
User Name	<input type="text" value="max.mustermann@yahoo.de"/>
Password	<input type="password" value="••••••••"/>
Sender E-mail Address	<input type="text" value="max.mustermann@yahoo.de"/> x
Send next E-mail after	<input type="text" value="30"/> Seconds (Range : 30 to 86400 seconds)
Use SSL-TLS	<input type="button" value="SSL-TLS"/> ▾
	<input type="button" value="Test"/>

E-mail

Recipient E-mail Address	<input type="text" value="max.mustermann@yahoo.de"/>
SMTP Mail Server	<input type="text" value="smtp.mail.yahoo.com"/>
Port	<input type="text" value="587"/> (Range : 1 to 65535)
User Name	<input type="text" value="max.mustermann@yahoo.de"/>
Password	<input type="password" value="••••••••"/>
Sender E-mail Address	<input type="text" value="max.mustermann@yahoo.de"/>
Send next E-mail after	<input type="text" value="30"/> Seconds (Range : 30 to 86400 seconds)
Use SSL-TLS	<input type="button" value="STARTTLS"/> ▾
	<input type="button" value="Test"/>

<sup>1</sup> Beachten Sie, dass einige Anbieter sowohl STARTTLS als auch SSL-TLS akzeptieren.  
Sollten Sie weitere Fragen zur Einrichtung haben schauen Sie bitte auch in den Hilfe Seiten des jeweiligen Anbieters nach. (Stand der Anleitung 08.07.2014)

<sup>2</sup> Die Email Einstellung finden Sie in der DCS-942L unter:  
> Setup > Snapshot  
oder  
> Setup > Videoclip
