D-Link
Quick Installation Guide

This product can be set up using Internet Explorer 6.x or above

DCS-5300G
Wireless Internet Camera with Pan and Tilt

Before You Begin

You must have at least the following:

- Windows 98/Me/2000/XP
- A CD-ROM drive
- An available Ethernet connection

Check Your Package Contents

These are the items included with your purchase:
If any of the below items are missing, please contact your reseller.

	DCS-5300G Internet Camera with Remote Control
	CD-ROM with Manual and Installation Wizard
	A/V Cable
	2 Antennas
	CAT5 Ethernet Cable
	Camera Stand
	12V AC Power Adapter

⚠ Using a power supply with a different voltage rating will damage this product and void the warranty.

System Requirements

- Internet Explorer 6.x or above
- CPU: 1.7GHz or above
- Memory Size: 128MB (256MB recommended)
- VGA card resolution: 800x600 or above

Note: If using multiple cameras for viewing/recording, the minimum requirements are a 2.4GHz or above CPU with 512MB memory and a 32MB video card.

1 Hardware Installation

Connect the Ethernet Cable

Connect an Ethernet cable to the Ethernet connector located on the Internet Camera's back panel and attach it to the network.

⚠ If you connect this camera directly to a PC, you will need a cross-over Ethernet cable. If you plug the camera into a hub or router, you will be able to use the cable included with your camera.

Attach the External Power Supply

Attach the external power supply to the DC power input connector located on the Internet Camera's back panel (labeled DC 12V) and connect it to an AC power outlet.

⚠ Power source is confirmed when the LED Power Indicator on the Internet Camera is illuminated.

Both the red and green LEDs will flash alternately and only the red LED will remain lit. The green LED will not come on until you have configured your camera.

Attach the A/V cable to the A/V out connector if you wish to connect the **DCS-5300G** to your TV.

Attach the red RCA connector to the "video" connector on your TV.

Attach the black RCA cable to the "audio" connector on your TV set.
Installing the Installation Wizard

Insert the **DCS-5300G** CD into the CD-ROM drive.
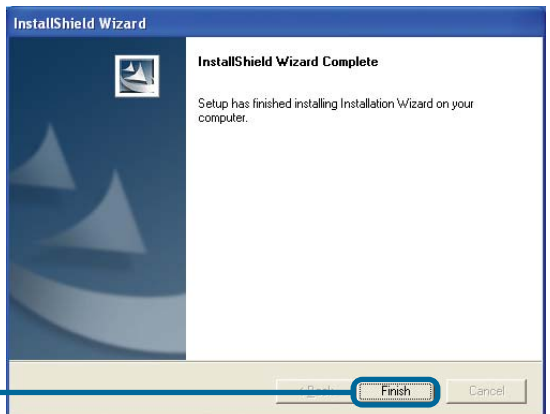

Click on **Install Software**

> Install Software
> View Quick Installation Guide
> View Manual

InstallShield Wizard Complete

Setup has finished installing Installation Wizard on your computer.
< Back   **Finish**   Cancel

Click **Finish**

Configuring Your Camera with the Installation Wizard

Double click on the **Installation Wizard** that was created on your desktop.

Installation Wizard

The software will search for cameras.

Status

Searching for cameras. Please wait...

The Installation Wizard will appear and show the MAC address of the **DCS-5300G** and an IP Address (which may or may not be correct depending on what you have your **DCS-5300G** connected to). If you have a DHCP* server on your network, there will be a valid IP Address displayed here, indicated by a "Yes" under the assigned column.

*A DHCP server is a device that supplies IP Addresses to its clients that are on the same network.

If the **Installation Wizard** does not detect any devices, you will need to find a tool small enough to fit into the reset hole and softly press down a switch for 2 cycles (the red and green LEDs will blink continuously and stop twice). Let go when the red LED starts to flash the second time.
Click **Search** to refresh the list of cameras if needed.
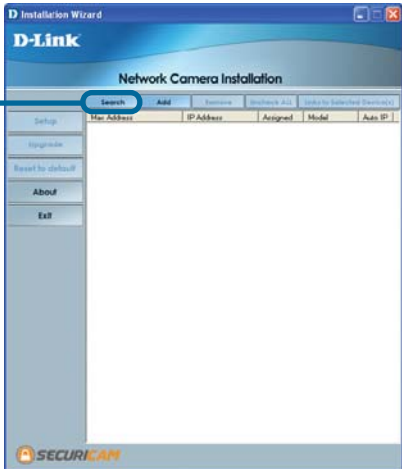

Once the camera appears, select the camera by placing a **Checkmark** in the box.

Click the **Setup** button
