### D-Link Quick Installation Guide

This product can be set up using any current web browser, i.e., Internet Explorer 5x, Netscape Navigator 4x.

**DI-604** 

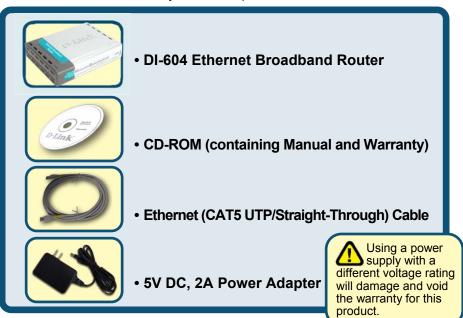

Express EtherNetwork™ Broadband Router

#### **Before You Begin**

- 1. If you purchased this router to share your high-speed Internet connection with other computers, you must have either an Ethernet-based Cable or a DSL modem with an established Internet account from an Internet Service Provider (ISP).
- 2. It's best to use the same computer that is connected to your modem for configuring the DI-604 router. The DI-604 Router acts as a DHCP server and will assign all the necessary IP address information on your network. See Appendix at the end of this Quick Installation Guide or the Manual on the CD-ROM for setting each network adapter to automatically obtain an IP address.

#### **Check Your Package Contents**

These are the items included with your DI-604 purchase:

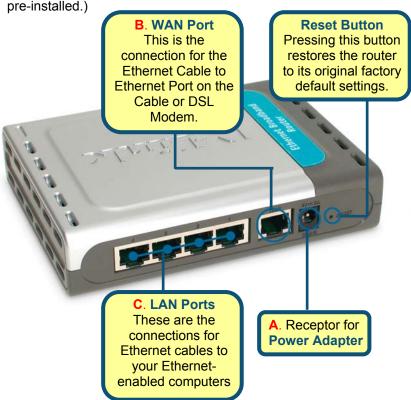

If any of the above items are missing, please contact your reseller.

# 1

# Connecting The DI-604 Broadband Router To Your Network

- A. First, connect the power adapter to the receptor at the back panel of the DI-604 and then plug the other end of the power adapter to a wall outlet or power strip. The Power LED will turn ON to indicate proper operation.
- **B.** Insert one end of an Ethernet cable to the **WAN port** on the back panel of the DI-604 and the other end to the Ethernet port located on your Cable or DSL modem. The WAN LED light will illuminate to indicate proper connection.

C. Insert one end of an Ethernet cable to LAN port 1 on the back panel of the DI-604 and the other end to an available Ethernet port on the network adapter in the computer you will use to configure the DI-604. The LED light for LAN Port 1 will illuminate to indicate proper connection. (Note: Some computers already have network adapters

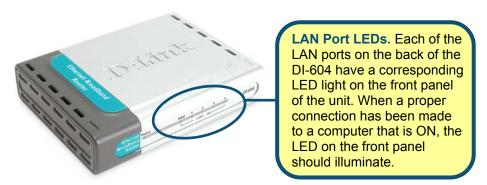

Restart Your Computer

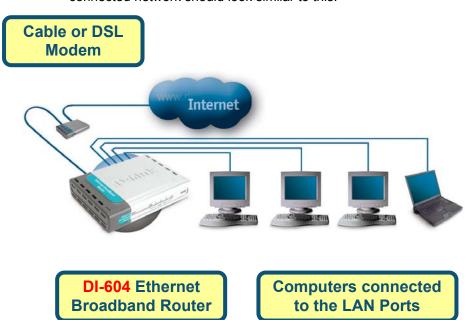

# **Connecting Additional Computers To The DI-604 Broadband Router**

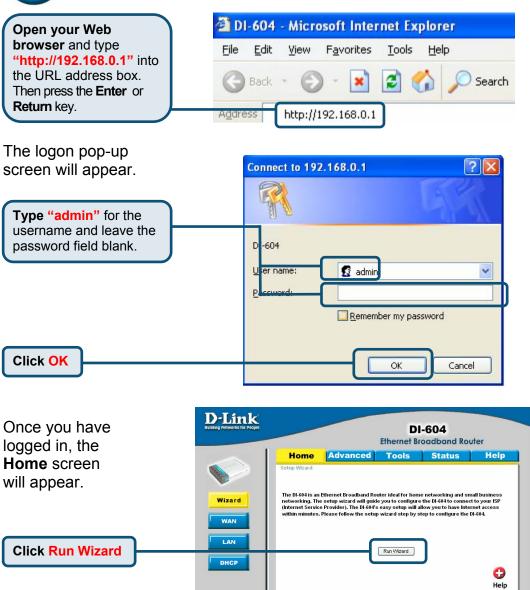

Using additional Ethernet (CAT5 UTP/Straight-Through) cables, connect your Ethernet-equipped computer(s) to one of the 3 remaining Ethernet LAN ports on the back panel of the DI-604.

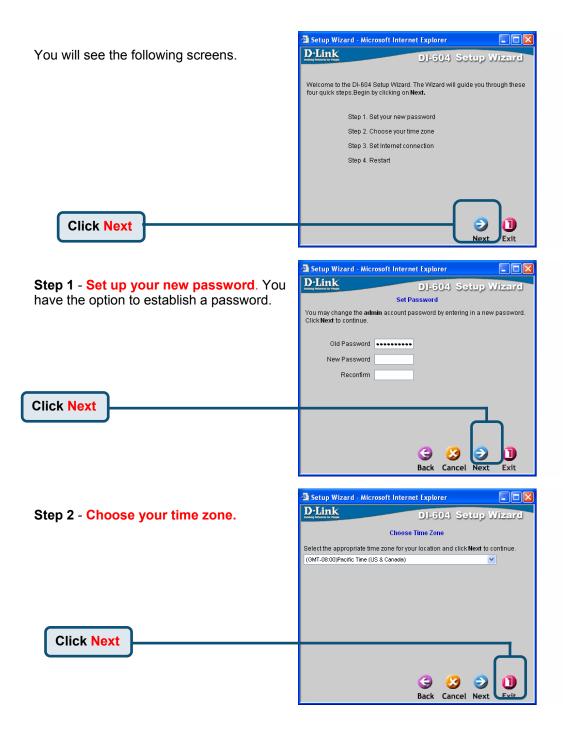

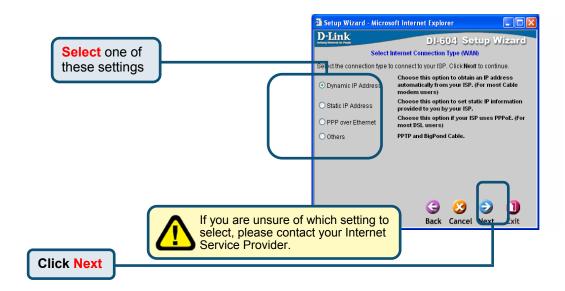

When you have completed the steps in this *Quick Installation Guide*, your connected network should look similar to this:

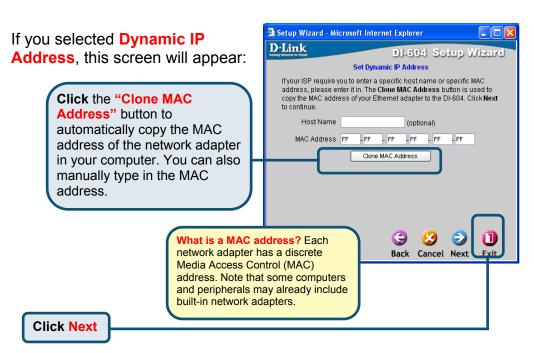

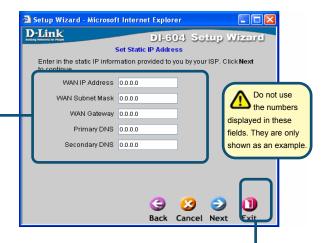

If your ISP requires a **Static IP Address**, and this option is selected, then this screen will appear:

Enter the IP address information originally provided to you by your ISP. You will need to complete all the required fields.

#### **Click Next**

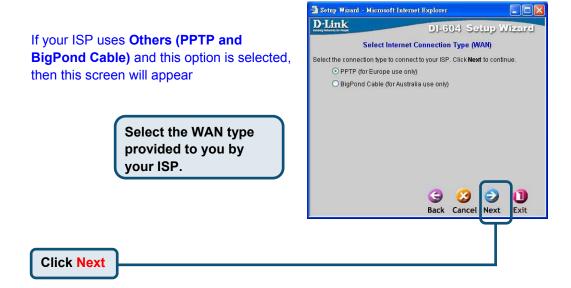

If your ISP uses **PPPoE** (Point-to-Point Protocol over Ethernet) and this option is selected, then this screen will appear:

Please be sure to remove any existing PPPoE client software installed on your computers.

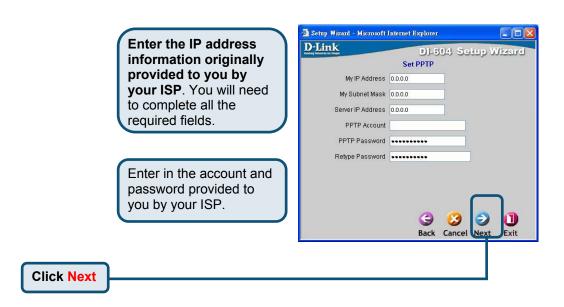

Enter in the username and password provided to you by your ISP.

**Click Next** 

If your ISP uses PPTP and this option is selected, then this screen will appear

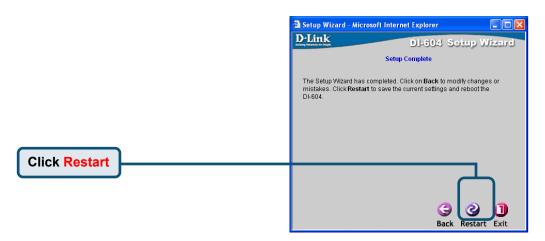

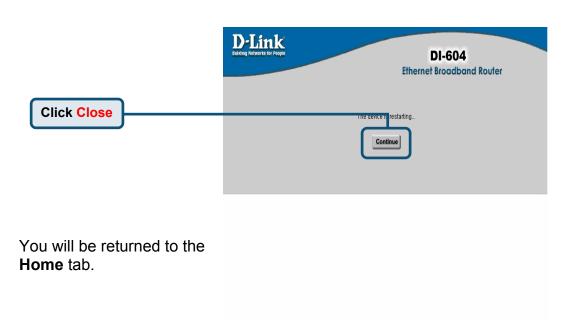

If your ISP uses **BigPond Cable** and this option is selected, then this screen will appear

Enter in the account and password provided to you by your ISP.

**Click Next** 

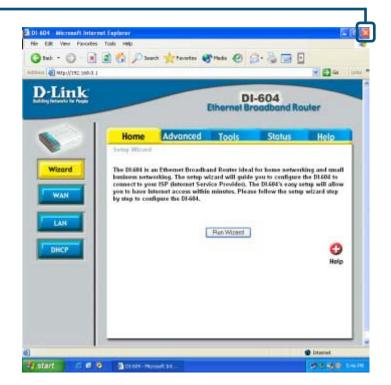

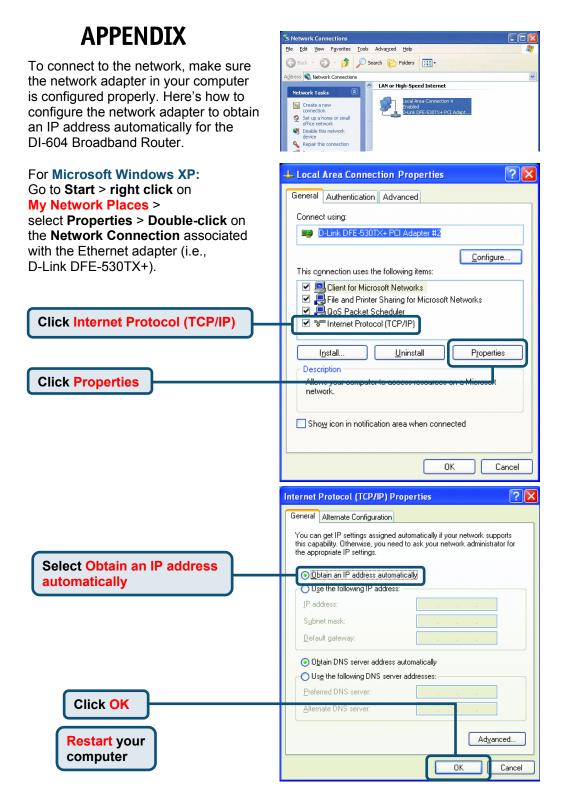

# **Test Your Internet Connection**

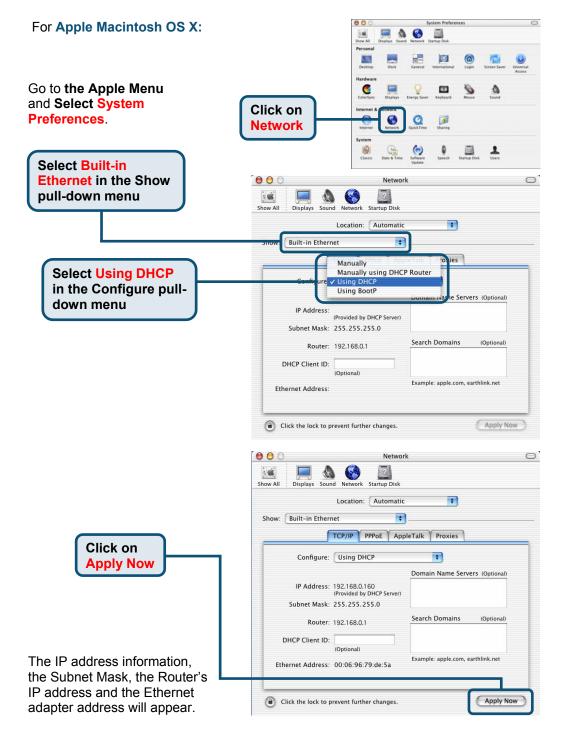

**Relaunch** your Web browser (i.e., *Internet Explorer* or *Netscape Navigator*), to link to your favorite Web site to test your Internet connection.

For additional settings or information, refer to the **Advanced**, **Tools**, **or Status** tabs on the web-management interface; or to the manual located on the CD-ROM.

#### **Technical Support**

You can find the most recent software and user documentation on the **D-Link** website.

**D-Link** provides free technical support for customers within the United States for the duration of the warranty period on this product.

U.S. customers can contact **D-Link** technical support through our web site or by phone.

**D-Link Technical Support over the Telephone:** (877) 453-5465 24 hours a day, seven days a week
