

Product Highlights

High-speed Wireless Connection

Enjoy lightning-fast wireless connectivity for smooth media streaming, faster file downloads, and seamless online gaming

Dual-band Wi-Fi for Seamless Performance

Access your network via two concurrent wireless bands for seamless performance no matter what you are doing

Simple Setup and Management

Set up the DIR-810L in no time, manage it with ease, and monitor your network on the go, wherever you have Internet access

DIR-810L

Wireless AC750 Dual Band Cloud Router

Features

High-Speed Connectivity

- 10/100 Fast Ethernet WAN port for speedy Internet access
- Four 10/100 Fast Ethernet LAN ports give you high-speed wired connectivity
- 802.11ac wireless specification delivers blazing fast wireless connectivity with increased range and reliability

Dual-band Wireless

- Concurrent dual-band wireless for connections up to 750 Mbps¹
- QoS engine to prioritize important traffic and deliver an uninterrupted connection

Setup and Management

- Get set up and connected in a few easy steps. Simple setup options guide you through the process to have you going in no time.
- Use the QRS Mobile app to set up the device using your iOS or Android mobile device.
- Keep an eye on your network from anywhere you have Internet access using the mydlink Cloud service or mydlink Lite app.
- An advanced suite of management features allows you to customize your network to suit your needs.

The DIR-810L Wireless AC750 Dual Band Cloud Router is an affordable yet powerful wireless networking solution which combines high-speed Wi-Fi connectivity with dual-band technology and fast Ethernet ports to deliver a seamless networking experience. The DIR-810L also includes a host of security features to keep your network safe, while integrated cloud features allow you to monitor your network from anywhere, anytime.

High-Speed Wired and Wireless Connectivity

The DIR-810L Wireless AC750 Dual Band Cloud Router uses the latest high-speed wireless technology to bring you lightning-fast Wi-Fi connections of up to 750 Mbps¹. Enjoy streaming media, Internet phonecalls, online gaming and content-rich web surfing throughout your home. In addition, 10/100 Fast Ethernet ports give you solid, dependable wired performance. The built-in Quality of Service (QoS) engine allows you to prioritize important traffic for seamless connection performance.

Dual Band Wireless for Seamless Performance

The DIR-810L Wireless AC750 Dual Band Cloud Router features dual-band wireless, allowing you to operate two concurrent, high-speed Wi-Fi bands for ultimate wireless performance. Surf the web, chat, and play online games on the 2.4 GHz band, while simultaneously streaming digital media on the 5 GHz band. What's more, each band can operate as a separate Wi-Fi network, giving you the ability to customize your network according to your connectivity needs.

Simple Setup, Powerful Management

The DIR-810L is a snap to set up, thanks to the built-in setup wizard. The router's intuitive graphical user interface will guide you through the setup process and have you up and running in no time. You can even use the QRS (Quick Router Setup) Mobile app to set up the router without even touching a computer. Once you are set up, a host of security and management features allow you to control access to your network, and optimize router

performance based on your networking requirements. Protect your network with advanced firewall features, restrict access to your network based on users' credentials, or even set up a guest network so that visitors can get online without gaining access to the rest of your resources. The DIR-810L puts you in complete control of your network.

mydlink-enabled

The DIR-810L is mydlink-enabled, meaning you can access and manage your router from anywhere you have an Internet connection. Keep an eye on your network, see who's connected or even what websites are being visited, all from any Internet-connected computer. You can even use the mydlink Lite App to monitor your network from your iOS or Android mobile device. The mydlink feature is great for parents who want to keep an eye on their network's activity while on the go.

Technical Specifications

General

Device Interfaces	<ul style="list-style-type: none"> • IEEE 802.11ac Wireless LAN • IEEE 802.11 a/b/g/n Wireless LAN 	<ul style="list-style-type: none"> • 10/100 Fast Ethernet WAN port • Four 10/100 Fast Ethernet LAN Ports

DIR-810L Wireless AC750 Dual Band Cloud Router

Order Information	
<i>Part Number</i>	<i>Description</i>
DIR-810L	Wireless AC750 Dual Band Cloud Router

¹ Maximum wireless signal rate derived from IEEE Standard 802.11ac and 802.11n specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, may lower actual data throughput rate. Environmental factors will adversely affect wireless signal range.

² For the EU region, this product is compliant with CE regulations and operates within the following frequency ranges: 2.4 - 2.4835 GHz and 5.150 - 5.250 GHz.
