

Product Highlights

High-Speed Internet

Latest VDSL standards provide transmission rates of up to 100 Mbps downstream for a superb Internet experience

Complete Internet Solution

A total solution that helps you connect, share, and enjoy your Internet connection with a single device that's easy to set up and manage

Wireless AC and Gigabit Ethernet

Stream HD multimedia across your home without interruption using the fastest wired and wireless technologies available today

DSL-3785

Wireless AC1200 Dual-Band Gigabit ADSL2+/VDSL2 Modem Router

Features

Connectivity

- Built-in ADSL2+/VDSL2 modem for connecting to your high-speed broadband Internet connection
- Four Gigabit Ethernet LAN ports to connect wired devices for high-speed online activities
- Fast 802.11ac wireless for high speed connections to all of your PCs and mobile devices
- One USB 2.0 port to share media from a storage device

Security

- Wi-Fi Protected Setup (WPS) to quickly add devices to your network
- Dual Firewall protection
- WPA/WPA2 encryption to help protect your wireless traffic from prying eyes

Ease of Use

- D-Link Easy Setup Wizard

The DSL-3785 Wireless AC1200 Dual-Band Gigabit ADSL2+/VDSL2 Modem Router is a versatile, high-performance router for the home and small office. With integrated VDSL, supporting download speeds of up to 100 Mbps, dual-active firewalls, Quality of Service (QoS), 802.11ac wireless LAN, and 4 gigabit Ethernet switch ports, the DSL-3785 provides all the functions that a home or small office needs to establish a high-speed connection to the Internet.

Fast and Reliable Home Network

The D-Link DSL-3785 Wireless AC1200 Dual-Band Gigabit ADSL2+/VDSL2 Modem Router creates a blazing fast home network that connects all of your devices to your broadband Internet connection. Concurrent dual-band 802.11ac brings you the future of high-bandwidth wireless connectivity, allowing you to stream HD video, make Internet voice calls, and surf the Internet from every corner of your home without interruption. Gigabit Ethernet ports provide high-speed wired connections for up to four PCs or other devices. It's stylish, easy-to-use, and provides you with a reliable network for today and tomorrow.

Smooth Streaming with Wireless AC

The DSL-3785 uses Wireless AC technology, which provides transfer rates of up to 1.2 Gbps² (866 AC + 300 N). The router operates on both the 2.4 GHz and 5 GHz wireless bands at the same time using concurrent dual-band technology and internal antennas. This allows you to browse the web, chat and e-mail using the 2.4 GHz band, while simultaneously streaming digital media, playing online games, or making Internet voice calls on the 5 GHz band.

Compatibility Assurance

The Wireless AC1200 Dual-Band Gigabit ADSL2+/VDSL2 Modem Router is backward compatible with existing 802.11n, 802.11g and 802.11b wireless equipment, ensuring compatibility with a wide range of wireless devices. In addition, it includes four Ethernet ports for connecting Ethernet-enabled PCs, print servers, and other devices, making the DSL-3785 the logical choice for users wanting a versatile and fast Wi-Fi modem router.

Wireless AC1200 Dual-Band Gigabit ADSL2+/VDSL2 Modem Router

File Sharing Right at Your Fingertips

The DSL-3785 lets you connect a USB storage device and instantly share documents, movies, pictures, and music. You can put your music library on a USB drive and share it with your entire home. You can show photos on the living room TV while a family member watches a movie on their computer. You can stream media files to multiple devices without interruption, or save them to your device for offline playback. The intuitive interface lets anyone immediately connect to a variety of entertainment options stored on your own storage device.

Easy to Set Up

Setting up the DSL-3785 is easy with the D-Link easy setup wizard. Simply open the setup utility and follow a few easy steps to get your home network up and running. You can also set up a WPA2 encrypted network with the touch of a button using Wi-Fi Protected Setup (WPS). Simply press the respective WPS buttons on each device to instantly establish an encrypted connection to a new device. Your network will be encrypted with WPA/WPA2 wireless encryption and employ built-in dual active firewalls (SPI and NAT) to help protect your network from unauthorized access.

Order Information

Part Number	Description
DSL-3785	Wireless AC1200 Dual-Band Gigabit ADSL2+/VDSL2 Modem Router

¹ Maximum wireless signal rate derived from IEEE Standard 802.11ac, 802.11n, 802.11g, and 802.11b specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. Environmental factors will adversely affect wireless signal range. Wireless range and speed rates are D-Link relative performance measurements based on the wireless range and speed rates of a standard Wireless G product from D-Link. Maximum throughput based on D-Link 802.11ac devices.
