## How to upgrade the firmware in the DSN-1100-10

[Topology]:

PC(192.168.1.111)-----(192.168.1.1)DSN-1100-10

## [Procedure]:

- 1. Go to the D-Link Support Web site (support.dlink.com).
- 2. Select your product model number from the pull-down menus.
- 3. Select the firmware topic.
- 4. Download the firmware.

5. When prompted to save the firmware file, click Save and save the file to a desired location.

6.Launch the XStack Storage Web Manager as follows:

File View Tools Help							
Stack Connections	Deerse Log In Username: admin Password:  Remember Me Log In						
xstack Storage							
X xStack Connections							
192.168.1.1, Connected	Physical Storage	0 Volumes	0 iSCSI Initiators				
System Administration	Total 0 Bytes	0 Volumes without					
	In Use 0 Bytes 0% Spare 0 Bytes 0% Available 0 Bytes 0%	authorized iSCSI Initiator	o connecca				
	Status: 0k Durable Name: 60015590200037F1000000000000000000000000000000000						
	State: Standalone Chassis Serial Number: Chassis 001-001						
	Write Cache Mode: Write Back						
System Actions 🛞	History (CDT) Controller Tasks Control	ystem Policy User Accounts Advance	ed Settings				
Volume Creation Wizard							
Add xStack		Software Current Version:	2.7.3.1				
Remove xStack		Alternate Software Version:	2.7.8.3				
Save Event History	Restart Shutdown	Use Alternate Version	Upgrade				
Log Out	Restore Factory Defaults	xStack Configuration	on:				
		Save	Restore				

7.On the View menu, click firmware **upgrade**. The message will be display.

Note: Please make sure the Windows firewall will be turned off.

8.Click **"OK"** to continue. If you click **"OK"**, the Open dialog box appears as follows:
